Children in Foster Care

Numbers

- 9,895 children in out-of-home placements under the supervision of the Arizona Department of Economic Security. Of these children, 2,714 were placed with unlicensed kin and 174 children were placed with licensed kin.

Preferences

- State law and policy require that kin be considered first when an out-of-home placement is sought for a child under the Department's care and custody.

Kinship care licensing

- Kinship foster care parents are encouraged but not required to become licensed foster parents, enabling them to receive the same foster care payment rate as non-kin foster parents.
- No separate licensing program for kinship foster parents. Kin must meet the same licensing standards as non-kin foster parents.

Subsidized guardianship programs

- Provides cash assistance to relatives who become the legal guardians of children who are in the Department's custody and have been in the guardian's custody for at least nine months. The Permanent Legal Guardian must first apply for any federal and state benefits that the child may be eligible to receive.
